This includes, children, families, staff, students, volunteers, and members of Mothercraft's community.

We will be guided with the following principles;

Dignity: Refers to policies, procedures and practices that enforce and stress on treating a person with a disability as a valued client, who is entitled to receiving full and adequate services just like any other client.

Independence: Freedom from control or influence of others. Freedom to make your own choices. Freedom to do things your own way.

Integration: Integrated services allow people with disabilities to fully benefit from the same services, at the same place and in the same or a similar way that other client experience

Equal opportunity: Having the same chances, options, benefits and results as others. In the case of services, it means that people with disabilities ought to have the same opportunity to benefit from the way you provide services to all people.
